Java Developer (100%) f/m Junior

Location: Skopje, Macedonia

Inside Development DOOEL is a privately held IT company. In close collaboration with the Swiss Inside Solutions AG we are providing our customers Adobe AEM consultancy services. We are a dynamic company based in Switzerland and are strengthening our market position constantly.

We are looking for open-minded and personable personalities, who love to get in touch with web technologies as well as to collaborate with clients. Inside is specialised in implementation and integration of Adobe AEM. Grab the opportunity to implement interesting web and intranet presences for multinationals. Get in touch with state of the art Java technologies, render business requirements into technical solutions and push implementation in agile teams. We attach great importance to a cooperative team spirit and a delightful working atmosphere.

We expect

- Student or graduate in computer science
- Knowledge in Java
- Knowledge in web technologies (JavaScript, HTML5, CSS3)
- Team player, with positive attitude towards agile development methods (Scrum)
- English, verbal and written skills

It is an advantage if you have knowledge in

- REST, Json, Ajax, MVC, Soap, LDAP, SSO, Spring, Maven, Ant, OWASP, Eclipse, Adobe AEM, Apache Sling, Ext JS, JQuery

We offer

- Interesting projects
- Development potentialities
- Young and open-minded team
- Excellent terms of employment

Would you like to bear the challenge? Send your CV at:
