Front-End Web Developer (100%) f/m

Location: Skopje, Macedonia

Inside Development is a privately held IT company. In close collaboration with the Swiss Inside Solutions AG we are providing our customers innovative mobile solutions. We are a dynamic company based in Switzerland and are strengthening our market position constantly.

We are looking for open-minded and personable personalities, who love to work on web development. Grab the opportunity to implement interesting projects. Get in touch with state of the art technologies, render business requirements into technical solutions and push implementation in agile teams. We attach great importance to a cooperative team spirit and a delightful working atmosphere.

We expect

- Strong knowledge in web technologies (HTML5, CSS)
- Compass, Sass or Less Framework
- Experience in Responsive Design
- Strong knowledge in Javascript and JQuery
- Team player, with positive attitude towards agile development methods (Scrum)
- English, verbal and written skills

It is an advantage if you have knowledge in

- JQuery Mobile Framework
- AngularJS Framework

We offer

- Interesting projects
- Development potentialities
- Young and open-minded team
- Excellent terms of employment
